2. Reason

ES-CON JAPAN views the returning of profits to its shareholders as one of its main tasks, and its basic policy is to make decisions after comprehensively taking into consideration performance, replenishment of internal reserves, and dividend trends, etc., and return profits to shareholders in an ongoing and stable manner corresponding to the company's growth potential.

We introduced the progressive dividend policy (a dividend policy that sets the dividend per share (DPS) for the previous fiscal year as the lower limit and "does not decrease the dividend amount, but rather only maintain or increase the dividend amount" in principle) in the second medium-term management plan and has continued to implement it in "IDEAL to REAL 2023," the fourth medium-term management plan, for the three-year period from the fiscal year ending December 2021 through the fiscal year ending December 2023.

Based on the above policy, for the year-end dividend for the fiscal year ended December 2022, ES-CON JAPAN decided to pay a dividend of 38 yen per share.
